Supreme Court of the Hawalian Islands-January Term, 1875. THE KING VS. ABIGAIL MAIKAL-Before Mr.

Mr. Justice HARRIS.

In reflecting on this matter, I am convinced

declared a nullity. It is a case which does not need a motion on the part of counsel, but the Court itself is obliged to take notice of it for the purpose of keeping their own record straight. This defendant pleaded guilty in the Police Court of Honolulu, to the charge of selling, giving or farnishing intexicating drinks to natives of this Kingdom, and upon that plea a judgment was rendered the next day by imposing a fine of one handred dollars, from which judgment she were one three-Inch fron gun, known as the Parro appealed, as she had a right to do, for the Court above might impose a less penalty. This plea of guilty was never altered or withdrawn, nor was it | taining twenty muskets, making a total of 100 guns sought to be so altered or withdrawn, and if a request of this kind had been made here it would have been refused, the plea baving been made before a Court having full jurisdiction in the case, and which had authority to permit an alteration in the plea, and undoubtedly would have done so, COCOAINE HYPERION, PYROLIGNEOUS ACID at any time before final judgment. When the case was called, a motion to impanuel a jury was made and no one objected. The only paper which was brought to the notice of the Court, was a certificate that such a judgment had been rendered and defendant had appealed from it. Thus the Court was not apprized that a plea of guilty had been entered, until in the progress of the case it transpired in evidence. It would have been better undoubtedly that I had immediately withdrawn the case from the jury; but I suppose that it will be conceded that when a case is go-

> trust a good deal to experienced Counsel. But admitting that it would have been better to have withdrawn the case immediately from the jury, it is certain that every lawyer must see and concede that there was never any issue before the jury on which they could pass; and if there was never any issue for them to pass upon, the whole proceedings were a nullity; and it is ordered that the verdict rendered in this case be considered as a nollity and the judgment of the Police Court will of course stand.

From the Vallejo Chron

The tag Monterey went down to the city Saturday with a load of guns and ammunition, marked "Col A. B. Steinberger, Honolulu, H. I." These are to be put on board of the flagship Penascola, which is now lying at the Bay in readiness to convey King Kalakana to his island home. At three o'clock yesterday afternoon the tog steamed over to Benicia that the proceedings before the jury should be with Colonel Steinberger, who we learn, went to the arsenal of that place, for the purpose of procuring the outfit. As no advance orders for their delivery. however, had been received by the commandant there, some time was expended in packing the different articles. These consisted of one of the cele brated Gatling guns, with its gun-carriage, the former being securely packed in a heavy wooden case. There were also one bundred cartridges accompany ing this gun; and two long, brass twelve-pound artillery gans with their carriages and calssons, and gun, and 100 rounds of ammunition; besides, five cases of muzzle-loading Springfield rifles, each con It is said that about 10,000 ball charges or cartridge were to go with these rifles. Each of these articles with the exception of the three large guns, were packed in strong boxes as if to last during a long and ver a rough Journey. The Monterey returned to the Island last evening, and before going down to the city she took from the Navy Yard one 15-pound brass field-piece and a boat-howitzer, with half a dozen boxes of ammunition, marked Sharpnel, a dozen large navy revolvers, with about two thousand rounds of cartridges. A large box of clothing made after the pavy pattern, besides some American flags and buntings of different colors, are also embraced in the outfit, and were sent down en the Financola by express. There is also a chest of medicine and surgical instruments, as well as navigators' instruments of different kinds, and for different purposes. Other boxes put on board contained rammers, sponges, musical instruments, etc. besides a fine lot of black smith tools, including a forge. In addition to the deck-load of the Monterey she towed the small from steam launch that formerly belonged to the U. S. ship Iroquois, that is now lying in ordinary at Rotten Row, This was also marked with the same address as the rest of the articles, and much speculation was had concerning the disposal of the warlike implements, some affirming they were to be presented to Kalakana; others that some coveted islands were to be taken possession of, while the knowing ones affirm that Mesers. Steinberger and Latrobe, of whom we made mention a few days since on their arrival from Washington, the former being a United States Commissioner to the Government of the Samoan Islands, and the latter an old sea captain and long resident of the Navigators, are to proceed on the Irasacola to the Hawaiian Islands with the outfit mentioned, there to transfer them on board of another vessel and proceed to the Samoan or Navi gators Islands and present them to the Government of that place on behalf of the United States, as a token of the good feeling held toward the people of these distant lands. For some time it has been represented that they have expressed a desire to be placed under the protection of the United State Government, and this is a present made no doubt more fully to gain their confidence. This latter exlains the true disposition that is to be made of the rticles mentioned, and one that can be relied upon by our readers as being correct. It is rumored that efforts are being made to get the Freds to take along also, but with what, if any, success we have been at
